1-Port Serial PCIe Host Card

- Compliant with PCI Express Specification 1.1
- Supports x1, x4, x8, x16 PCI Express Bus
- Support 1 x UART serial ports
- Built-in 16C950 compatible UART
- 128 byte FIFO for transmit/receive
- Data transfer rate up to 115200bps
- Plug-n-Play, I/O address and IRQ assigned by BIOS
- Support Windows XP/Vista/7/8

• Introduction:

This UGT-PCE10SR is part of a series of I/O card based on the PCI Express technology. It offers one Serial Communication port that enable you to connect serial devices like Point of Sale terminals, modems, printers, scanners, cash registers, bar code readers, keypads, numeric displays, electrical scales, data acquisition equipment, and other serial devices for the PC and compatible systems. This card is designed to meet PCI Express Specification and with the standard or low profile brackets can be installed virtually in any PC with all major operating systems. The I/O address and IRQ are automatically configured to simplify the installation at the same time offers a reliable and high performance solution for Serial Communication.

• Specifiactions:

Model:	UGT-PCE10SR
Interface:	PCIe
Ports:	1 Serial Ports (DB9 Male)
Dimensions:	68 x 60 x 18mm

• System Requirement

> Windows XP/Vista/7/8 (32/64 bit)
> One available PCI Express slot

• Package Contents

1 x 1-Port Serial (RS-232) PCIe Host Card
1 x Driver CD
1 x User Manual
1 x Low Profile Brackets
